

Water Massage Therapy

Water Massage Therapy

Our invitation to you is...take the time to give it one chance so you can feel how relaxed your muscles can be as the strong jets and heated water help to improve circulation, relax tight muscles, reduce restrictions and relieve stress. In regard to all of the ongoing sitting, bending, lifting and twisting people do everyday...what do you normally do to help your body recover and relax? Do yourself a favor and take time out for yourself for a change. It will be well worth your time. We have two separate monthly Water Massage packages for people to choose from through the remainder of the year. The first one is \$25 for 4 sessions per month and the second is \$35 for unlimited sessions per month (limit one per person per day). Both of these packages can be shared with your spouse or a family member! Gift certificates are also available for Birthdays, Holidays, Anniversaries, Mother's/Father's Day, Valentine's Day... or just as a thank you to a friend or family member.
